

# IMJ Chips on Flat Sheet

## Your Personalized Paper Chips - How to use:

- 1) Page 2 of this pamphlet contains the *IMJ Chips* that can be used in all mahjong games. However, the design of the chips is in compliance with the *International Mahjong Rules*.
- 2) Before printing, prepare to have enough papers ready. One sheet will provide enough chips for one player - You need four sheets for four players, obviously! (Note: "Enough" means each player will receive 20,000 *mahjong dollars*, or "*mados*", as per the *Article 7.1 Settings* of the *International Mahjong Rules*.)
- 3) You can print the chips on either light sheets or heavy sheets.
- 4) On the following page, you can personalize the chips before printing - simply type the name of your desire to replace the words "MyChips".
- 5) To make chips with both sides printed, you can EITHER print two identical pages and paste them back to back together; OR print the pages double sided. The page is so designed that chips are arranged equally on both the left and right sides of the sheet.
- 6) Please email us any comments and suggestions how we could improve the design.

## Publication information

Title: *IMJ Chips on Flat Sheet*

ISBN 978-0-9683687-3-2

(This edition is modified from the version first published in 2003.)

Publisher and author: Cofa Tsui, Vancouver, British Columbia.
